

Grand Austria Hotel

Introduction

You are trying your luck as an Hotelier in early 20th century Vienna. You need to open and prepare hotel rooms for your guests and ensure that the guests receive their food and drink orders. To do this, you must hire more staff. On top of these challenges, you must also impress the Emperor. Make your humble hotel into the Grand Hotel Austria!

Goal and Game End

The game ends after the 7th Round. Final scoring is conducted, and the player with the most Victory Points (VP) wins. *Remember: At the end of rounds 3, 5, and 7, there are also intermediate "Emperor Scorings".*

Setup

1. Place the **Game Board** in the middle of the table
 - Put the black **Round Marker** on Round 1.
2. Place the **Action Board** (with the 6 action spaces) below the Game Board
3. Place the Dustbin and 75/150 VP markers next to the Game Board
4. Put the 120 **Dish/Drink Cubes** (30 each for coffee (black), wine (red), strudel (brown) and cake (white)) next to the Game Board.
5. Put the 84 **Room Tiles** in R/Y/B into a pile next to the board.
6. Shuffle the 56 **Guest Cards** and place them in a face down stack next to the row of tables on the Game board. Draw 5 cards from the Guest Card stack and place them face up over the tables to create a display.
7. Prepare the 48 **Staff Cards** according to the whether the game is Introductory, Standard or Experienced.
 - **Introductory** – Sort the Staff Cards into A, B, C, and D (letters on front face of card), and give each player one set. Any remaining Staff Cards are shuffled them to form a face down draw deck next to the Game Board.
 - **Standard** – Shuffle all the Staff Cards, and deal 6 to each player face down. Place the remaining Staff Card deck face down in a stack next to the board.
 - **Experienced Game** – Shuffle all the Staff Cards, and deal 6 to each player face down. Place the remaining Staff Cards face down in a stack next to the board. Players pick up their hand and draft 1 Staff Card at a time, passing the remaining cards to the left after each draft until each player has drafted 6 cards for use.
8. Sort the 12 **Politics Cards** into A, B and C stacks. Shuffle each stack separately, and draw one card from each stack, and put them face up on their lettered spots on the game board.
 - *Politics Cards provide in-game goals to achieve, and victory points are awarded for achieving these goals – the amount of VP depending on how many other players already achieved that goal.*
9. Sort the 12 **Emperor Tiles** (black/white) into piles by their letter (A, B, C). Shuffle each pile and draw one tile for each letter and put them on their requisite spots on the game board.
10. From the 14 **Action Dice**, put out the correct number for the player count, returning the remaining dice to the box.
 - 2P = 10 dice
 - 3P = 12 dice
 - 4P = 14 dice
11. Pick up the 9 **Turn Order Tiles**, and from them, take the correct tiles for the player count (player count is on the back of the tile).
12. Give each player the following, returning the remaining player aids, Hotel Boards, and wooden discs to the box:
 - **Player Aid Card**
 - **Hotel Board**
 - 6 **Wooden Discs** in their player colour
13. As a group, the players agree whether they will use the front (night) sides of their Hotel Boards (which are the same for all players), or the back (day) sides of their Hotel Boards (which are all different).

14. Each player does the following:
 - Places one Wooden Disc on the '10' Krone space on their board.
 - i. *Your money can never exceed 20 Krone.*
 - Places one Wooden Disc on the '0' space of the VP track
 - Places one Wooden Disc on the '0' space of the Emperor track
 - Keeps three Wooden Discs for marking the achievement of Politics Card goals
 - Takes 1 Dish/Drink cube in each colour from general supply and places them in their kitchen
15. Determine the first player randomly, and hand that player the Turn Order Tile "1", and the next player clockwise the Turn order "2" tile and so forth.
16. Beginning from the last player in turn order, and going anti-clockwise, each player takes a Guest Card from the five cards in the game board window (at no cost), and places it below their Hotel Board.
 - *The Guest Cards are slid to the right and replenished between each card draw.*
17. Each player prepares 3 rooms (*or fewer, but this is inadvisable – better to prepare the 0 cost rooms if money saving is needed*) in their hotel by taking one Room Tile from general supply corresponding to the colour of the room they are preparing, and placing it on their Hotel Board. Players must place rooms beginning with the bottom left room in their hotel, and linking all subsequently placed rooms orthogonally to rooms previously placed. The cost of preparing the room is shown on the sandwich board to the left of each hotel level, and the Krone track must be decreased by the cost of each room prepared.

Course of Play

Start of round

The player holding Order Tile "1" collects and rolls all dice in play, and organises them by the number of pips they show into the Action Board spaces.

Each round a player has two turns, but turn order is taken in a 'horseshoe' fashion (*the player with the lowest number visible on their Turn Order Tile goes next*). On their turn, a player can perform the following activities:

1. Take a Guest Card from the Game Board (Optional)
2. Actions
 - a. Take a die and carry out its corresponding Action (Mandatory)
 - b. Take "Additional Actions" (Optional)

Or they can Pass (see Passing).

End of round

- Emperor scoring (in Rounds 3, 5, and 7 only)
- Final Scoring (Round 7 only)
- Un-tap Staff Cards (not Round 7)
- Pass Play Order tokens one space clockwise (not Round 7)
- Advance Round token one space (not Round 7)

1. Taking a Guest

In order to take a Guest Card, you must have a free space in the café on your Hotel Board. You may take exactly 1 Guest Card from the display on the Game Board. If you do, you pay the cost in Krone shown below the Guest Card you selected, and place the Guest Card on an empty café table on your Hotel Board. Slide the remaining Guest Cards on the Game Board to the right to fill the gap that remains, and draw a new Guest Card from the draw deck and place it in the left-most Guest Space on the Game Board.

2. Actions

Choose one Action Space on the Actions Board containing at least 1 die, and carry out the action of that space. The strength of the Action taken is determined by the number of dice on the Action Space you

selected (including the die you just picked up). Once the action is completed, place the die picked up on the lowest visible number on your Turn Order Tile.

Important: Whenever you receive Dish/Drink cubes in the game, you may place them directly onto one or more guests towards fulfilling their orders. Any excess cubes or cubes you do not wish to place directly are put in your Kitchen.

Action	Effect
	#1 Action: For each die on this action space, you can take 1 strudel or 1 cake, but you cannot take more cake than strudel, but other than this you can take any combination of strudel and cake.
	#2 Action: For each die on this action space, you can take 1 wine or 1 coffee, but you cannot take more coffee than wine (same limitations as Action #1).
	#3 Action: For each die on this action space, you can prepare a room. Take a Room Tile of your choice from the supply and place it on your Hotel Board with the following limitations: • Each Room Tile must be placed orthogonally adjacent to an already placed Room Tile • You place the Room Tile “free” rather than “occupied” side up • You must pay the cost in Krone shown on the sandwich board for the floor the room is placed in • The colour of the Room Tile placed must match the colour of the room it is placed on. • Preparing a room that shows VP on the door results in those VP being awarded immediately.
	#4 Action: For each die on this action space, you can advance 1 space on the Emperor track or your Krone track. You may split these advancements between the two tracks. <i>Note: You cannot advance past space 13 on the Emperor track. Instead, you receive 1 VP for each space you would have moved beyond space 13.</i>
	#5 Action: You can play <u>exactly one</u> Staff Card. For each die on the action space, you can reduce the Krone cost of hiring that Staff by 1. Pay the cost using your Krone track. <i>If the cost would be reduced to a negative number by the number of dice present, you do not receive any Krone from the transaction. If a Staff Card has a once per game effect, this is triggered immediately on hiring them.</i>
	#6 Action: Pay 1 Krone, and use any other action with a strength equal to the number of dice in the ‘6’ Action space.

Additional Actions

At any time on your turn after you have taken (or not taken) your Guest Card, you can take the following additional actions as many times as you like (except those with limitations).

- Once per turn, you can pay 1 Krone to add an extra ‘1’ strength to the action you have selected.
- Pay 1 Krone to move 3 Dish/Drink cubes from your kitchen to the orders on your Guest Cards.
- Place 1 of your Wooden Discs on a Politics Card
- Use a Staff Card with a ‘once per round’ effect (then tap it).
- Move one of your Guests from your Café to a room in your Hotel, with the following restrictions:
 - The Guest’s order must have been completed
 - There must be a ‘Free’ room available to receive the Guest. *If you have no free rooms, you cannot take this action and the guest remains in the café.*
 - The colour of the guest must match the colour of the room
 - Green/Tourist Guests take any room colour.

Then:

- Flip the room token of the newly occupied room to its occupied side.
- Receive the VP and Reward depicted on the Guest Card that just occupied a room

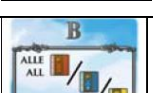

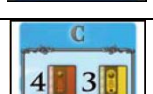

- Receive the Occupancy bonus of the room grouping if the guest occupies a room that is the last room in that grouping. (Also see Room Occupancy Bonuses below).
- *Note: It is not mandatory to take a Guest's reward if you do not wish to do so.*

Room Occupancy Bonuses

When all rooms in a grouping of orthogonally adjacent rooms of the same colour are occupied, an occupancy bonus is awarded depending upon the number of rooms in the grouping (as few as one), and the colour of the rooms in the grouping (yellow = emperor track, red = Krone, blue = VP). The room occupancy tables appear on the roof of your hotel. The bonus is awarded exactly once, at the moment the last room is occupied.

Politics Cards

Each Politics Card depicts a requirement. On his turn, the moment a player meets that requirement, he uses an Additional Action to place one of his Wooden Discs on the highest scoring open space on the Politics Card, and receives the depicted VP from that space. Each Politics Card can only be used once by each player.

A/B/C	Card Image	Requirement	A/B/C	Card Image	Requirement
A		You must have 20 Krone	A		You have <u>played</u> at least 6 Staff Cards.
A		You are on Space 10 of the Emperor track or higher	A		You have at least 12 Room Tiles (free or occupied) in your hotel
B		All rooms in at least 2 rows of your hotel are <u>occupied</u>	B		All rooms in at least 6 groups of rooms on your Hotel Board are occupied.
B		All rooms in at least 2 columns of your hotel are <u>occupied</u> .	B		All rooms of <u>one colour</u> (you can choose which colour) are occupied in your hotel.
C		You have at least 3 occupied rooms of <u>each</u> colour.	C		4Y+3B – You have at least 4 yellow and 3 blue occupied rooms.
C		You have at least 4 red and 3 yellow occupied rooms.	C		4B+3R – You have at least 4 blue and 3 red occupied rooms.

Note: If an Emperor penalty causes the removal of a room from a complete grouping, it is possible to re-complete that grouping, and earn the occupancy bonus a second time.

Passing

If a player chooses to pass instead of taking their turn, they must wait until every other player has either passed or taken two actions. This may result in several players who have passed. The passing player with the lowest numbered turn order space collects all dice remaining on the Action Spaces, puts 1 in the dustbin, and re-rolls the remainder, sorting them into the Action spaces as before. That player can take one of the newly rolled dice, or they can pass again. Play continues in this way until all players have covered their turn order squares, or there are no dice remaining available on the action spaces. *Note that if you pass on the first of your two turns, you automatically pass on the second one too, and have to wait for the other players to take their turns.*

End of Round Activities

Emperor Scoring

Players begin the game on the 0 space of the Emperor scoring track. Their token will advance on the track throughout the game by achieving Emperor Points. During an Emperor Scoring round (end of 3rd, 5th and 7th Rounds), each player:

- Receives Victory Points for the position their disc occupies on the Emperor track (the VP received is shown below the box they occupy).
- Moves their Wooden Disc backwards on the Emperor track (3 spaces at Round 3 scoring, 5 spaces at the Round 5 scoring, and 7 places at the Round 7 scoring).
- Receives an Emperor Bonus, nothing, or a penalty depending on whether they are now on a yellow, white, or black space on the Emperor track, respectively.
 - The Bonus or Penalty received is depicted on the Emperor Tile A, B, C for rounds 3, 5, 7 respectively. If the penalty contains a slash, the player may choose which penalty they receive, but if they cannot pay one of the two penalties, they must take the other one.

Politics Cards that are completed due to the Emperor Bonuses after the end of round 7 cannot be scored because a player has no turns (and therefore no additional actions) remaining.

A/B/C	Tile	Effects
A		Bonus = Gain 3 Krone Penalty = Lose 3 Krone <u>or</u> Lose 5 VP.
A		Bonus = Draw three Staff Cards, choose one, and immediately hire them for 3 Krone less than their usual hire cost. Penalty = Return two Staff Cards from hand to the bottom of the Staff Card draw pile, <u>or</u> lose 5 VP.
A		Bonus = Gain 2 Dish/Drink cubes of any type(s). Penalty = All Dish/Drink cubes in your kitchen are returned to general supply.
A		Bonus = Prepare a room of your choice without paying any cost (all other room preparation rules apply). Penalty = Remove an <u>unoccupied</u> Room Tile from the <u>highest possible</u> row of your hotel, <u>or</u> lose 5 VP.
B		Bonus = Receive 1 Dish/Drink cube of each of the four types. Penalty = All Dish/Drink cubes in your kitchen are returned to general supply.
B		Bonus = Draw 3 Staff Cards, and immediately hire one of them for 0 cost. Penalty = Return 3 Staff Cards from your hand to the bottom of the Staff Card pile, or lose 7 VP
B		Bonus = Receive 5 Krone, Penalty = Lose 5 Krone or 7 VP.
B		Bonus = You can place a Room Tile of any colour in the first or second row of your hotel at no cost. You immediately flip it to its occupied side. <i>Follow the usual rules for room placement.</i> Penalty = Lose your two highest <u>occupied</u> Room Tiles from your hotel, or lose 7 VP*. <i>*Errata'd for clarity.</i>
C		Bonus = Gain 8 VP. Penalty = Lose 8 VP.
C		Bonus = Receive 2 VP for each Staff Card you have played. Penalty = Lose 2 VP for each Staff Card you have played.
C		Bonus = Place a room of any colour on your Hotel Board at no cost. Immediately flip it to its occupied side. <i>Follow the usual room placement rules.</i> Penalty = Lose two occupied rooms. The first room must be the highest occupied room on your board, and the next room must be in the same column as the first, in the highest row possible. Otherwise you just remove one room.
C		Bonus = You can play a Staff Card from your hand at no cost. Penalty = You must discard a Staff Card with a game end effect, or lose 10 VP.

Final Scoring

After the 7th Round, Final Scoring occurs. Players receive VP as follows:

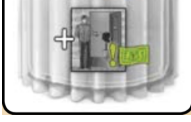

- VP from Staff Cards with End Game abilities.
- VP for Occupied rooms depending on which floor of your hotel they are on (1 VP first floor, 2 VP second floor, 3 VP third floor, 4 VP fourth floor).
- 1 VP for each remaining Krone, and each Dish/Drink cube in your kitchen.
 - *Dish/Drink cubes allocated to Guests score 0, as they already ate them!*
- Lose 5 VP for each Guest Card remaining in your café.

The player with the most VP wins. In case of a tie, the player with a greater total of Krone and Dish/Drink cubes wins.

General Errata

One of the Hotel Boards has a misprint, where the wallpaper colour and the door colour don't match for a couple of the rooms! In these cases, the door colour is the correct colour to use.

Guest Card Iconography

Icon	Effect	Icon	Effect
	Advance the depicted number of spaces on the Emperor track.		You receive 1 Krone.
	Take a dish or drink of the depicted colour. Place it on a guest's order or in your Kitchen.		You can play a Staff Card at no cost.
	Take a dish or drink of your choice. Place it on a guest's order or in your Kitchen.		You can play a Staff Card, paying 3 Krone less than printed on the card.
	You receive 2 Victory Points.		Take a Staff Card from the draw pile and put it into your hand.
	Prepare a room of your choice, according to the placement rules. Pay normal costs.		Take 3 Staff cards from the draw pile and play one of them immediately, paying 3 Krone less than printed on the card. Return the other 2 cards to the bottom of the draw pile.
	Prepare a room of your choice, according to the placement rules. Pay normal costs minus 1 Krone.		Turn a prepared room of the depicted colour to the other side, marking it occupied. Grey colour means you can turn any room, regardless of colour.
	Prepare a room of your choice at no cost, according to the placement rules.		Take a face-up Guest card from the game board and place it in your Café at no cost, unless you have no space in your Café.

Some Guest Cards have an exclamation mark on them. This means take the action, paying normal costs.

E Gizia – You take another complete turn (including receiving another Guest if you want/can), but when you take your dice action, you do not 'take' the dice of the action you choose, it is left in place.

Herzoy/Duke – Draw 3 Staff Cards, pick one, and hire them for free, discarding the other two cards.

Baronen/Baron – Draw 3 Staff Cards, pick one, and hire them at a 3 Krone discount, discarding the other two cards.

Appendix: Staff Cards

Name German (English)	Cost (Krone)	Type	Effect
Bademeister (Pool Attendant)	1	One-time	Advance three spaces on the Emperor Track
Barista (Barista)	3	One-time	You receive 4 coffee
Barmann (Bar Keeper)	4	Once per round	You receive 1 wine
Bote (Delivery Boy)	6	Permanent	You can take guests from the game board at no cost
Butler (Butler)	5	Permanent	You can prepare blue rooms at no cost
Chauffeur (Chaffeur)	5	Permanent	You can prepare red rooms at no cost
Chefkoch (Chef)	3	One-time	You receive 1 strudel, 1 cake, 1 wine and 1 coffee
Concierge (Concierge)	4	End of Game	You receive 3 VP per <u>Occupied</u> blue room.
Dekorateur (Decorator)	2	Permanent	Each time you take a die showing “1” or “2”, you can also prepare one room.
Direktions Assistant (Assistant Manager)	4	Game End	You receive 2 VP per Staff Card you played, including the Assistant Manager.
Direktor (Hotel Manager)	4	Game End	You receive 4 VP for each set of 3 <u>Occupied</u> rooms of different colours. Each room can only be part of one set.
Empfangschef (Reception Clerk)	4	Game End	You receive 3 VP per <u>Occupied</u> yellow room.
Etagendame (Floor Housekeeper (Female))	2	Game End	You receive 5 VP for each fully occupied floor in your hotel.
Etagendiener (Floor Housekeeper (Male))	5	Permanent	Each time that you complete a guest’s order that consist of 4 dish/drink tokens, you also receive 4 VP. <i>You only receive the VPs when the guest goes to their room (on top of the guest’s usual VP).</i>
Floristin (Florist)	5	Permanent	You can prepare yellow rooms at no cost.
Fremdenfuhrer (Tour Guide)	2	Permanent	Each time you complete a green guest’s order, you also receive 2 VP. <i>You only receive the VPs when the guest goes to their room (on top of the guest’s usual VP)</i>
Fruhstruckskellner (Breakfast Server)	4	Once per round	You receive 1 strudel
